

Enquête sur les salaires du secteur  
de la consommation en France 2015

# Que valez-vous?

# Enquête sur les salaires du secteur de la consommation en France 2015

Welcome to Nigel Wright Group's French Consumer Sector Salary Survey 2015, which is specifically designed to provide you with an insight into the salaries commanded by professionals within this sector. Nigel Wright Group has earned a strong reputation within the consumer sector across Europe for providing a high quality recruitment service that is built upon our industry knowledge. We consider it important to continue to bring you relevant, useful information that you can use, in an accessible format.

---

Les données du présent sondage ont été recueillies auprès de 1,000 personnes qui ont répondu à notre questionnaire en ligne au dernier trimestre 2014 et au premier trimestre 2015 et sont complétées par des informations en provenance de notre vaste base de données candidats.

The survey represents a cross-section of respondents with the following profile:

- Consumer sub-sector: Food & Drink, Health & Beauty, Consumer Electronics, DIY, Fashion and Apparel, Household Products, Luxury Goods, OTC pharmaceuticals, Leisure & Entertainment, Media and publishing, Retail and E-commerce and Travel;
- Homme 63%, Femme 37%;
- Âge moyen 40;
- 83% ont fait des études supérieures;
- 19% des personnes interrogées travaillent pour leur employeur actuel depuis moins d'un an; 45% for between one and three years, 22% for between three and five years and 10% for more than five years.

The first three parts of the survey focuses on some general points of interest, such as levels of satisfaction, respondents' motivation to change jobs as well as attitudes towards skill shortages and the qualities needed to succeed in the industry. This is followed by discipline-specific analyses of salaries.

# Respondent's Profile

**63%**

HOMME

**37%**

FEMME

Âge moyen: **40**

**83%**

ont fait des études  
supérieures

# 1. Indicateurs qualitatifs

## 1.1 Satisfaction professionnelle par niveau de responsabilité

Nous avons demandé aux personnes interrogées d'attribuer une note, de 1 à 5, à leur niveau de satisfaction professionnelle:

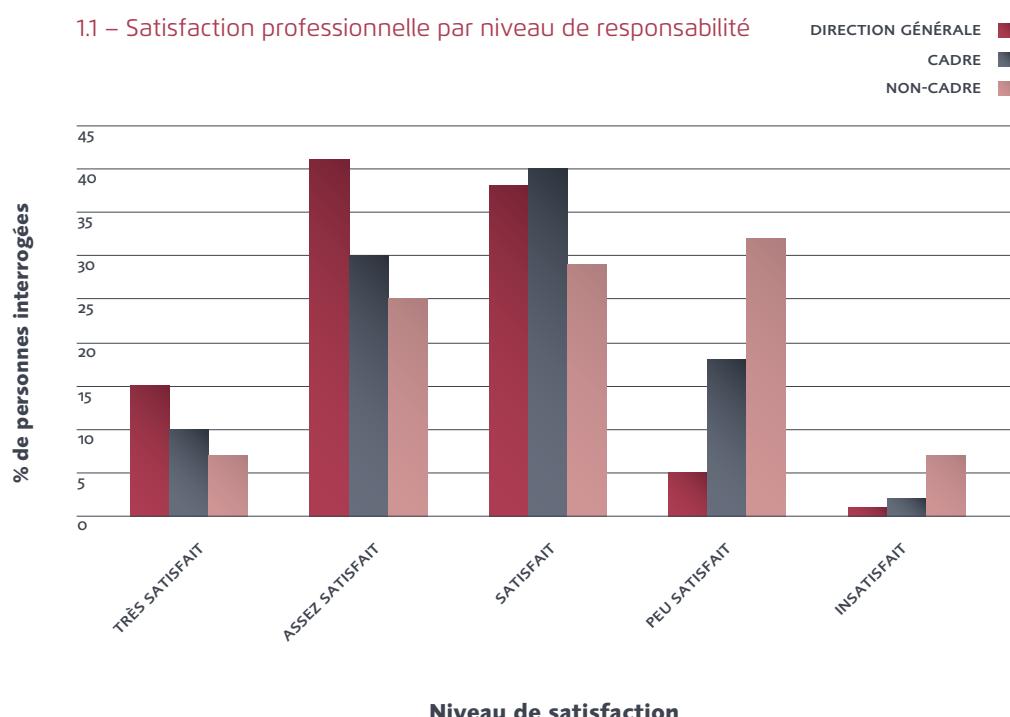

**1 = Très satisfait**

**2 = Assez satisfait**

**3 = Satisfait**

**4 = Peu satisfait**

**5 = Insatisfait**

Les résultats montrent que, dans l'ensemble, les salariés Français sont assez satisfaits, malgré des variations entre les niveaux de satisfaction. À chaque niveau des organisations, plus de 80 % des personnes interrogées se disent satisfaites ou très satisfaites, ce qui est encourageant pour les professionnels et les dirigeants RH. The challenge, then, is to find out why those at non-management level are dissatisfied and what can be done to change this, whilst ensuring that the satisfaction level of the rest of the workforce is maintained.

## 1.2 Satisfaction professionnelle par discipline

Nous avons demandé aux personnes interrogées d'attribuer une note, de 1 à 5, à leur niveau de satisfaction professionnelle:

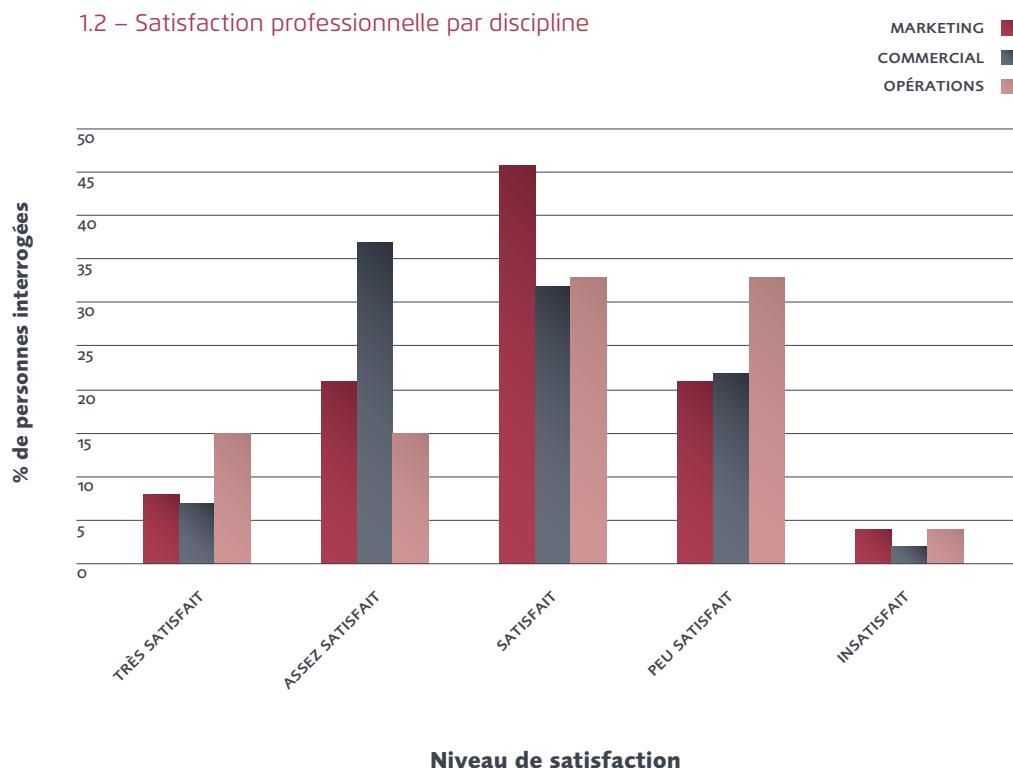

**1 = Très satisfait**

**2 = Assez satisfait**

**3 = Satisfait**

**4 = Peu satisfait**

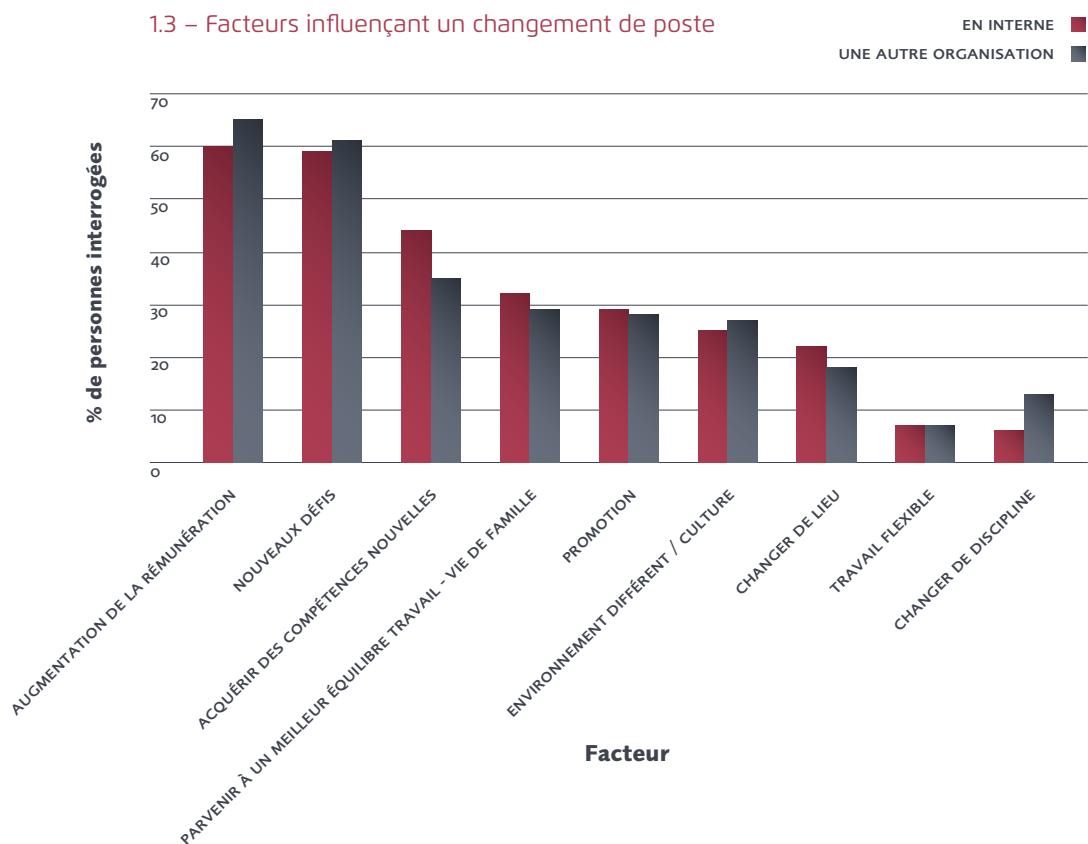

**5 = Insatisfait**

Sales people are marginally happier in their jobs with 76% stating they were at least satisfied in their current role. Those working in operations, however, were more inclined to be less satisfied than their peers in sales and marketing.

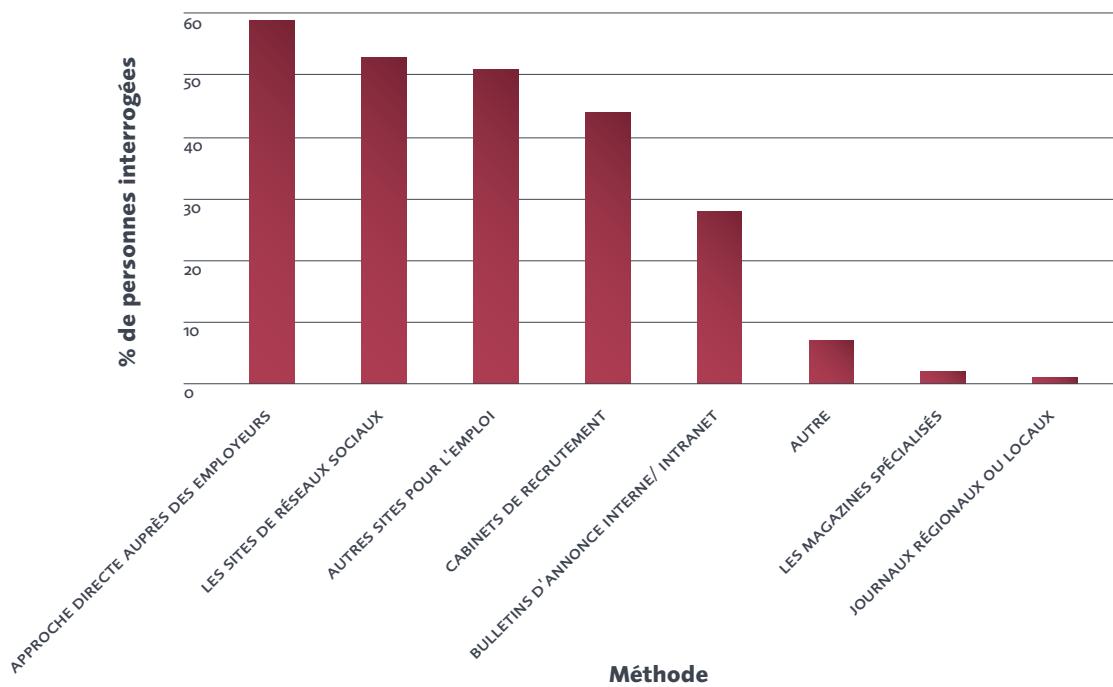

## 1.3 Facteurs influençant un changement de poste

Nous avons demandé aux personnes interrogées de choisir les trois facteurs les plus susceptibles de les faire changer d'emploi au sein de leur entreprise actuelle (en interne) et pour entrer dans une autre organisation (externe). In the consumer sector, although money is important, the opportunity to gain new skills and experience new challenges are also persuasive factors for employees considering their next move. Achieving an improved work-life balance is also an increasingly important factor for job seekers today.

## 1.4 Méthodes employées pour chercher un nouveau poste

### 1.4 – Méthodes employées pour chercher un nouveau poste

Nous avons demandé aux personnes interrogées de sélectionner les méthodes auxquelles elles auraient recours pour chercher un nouveau poste. Those working in the French consumer sector compliment traditional job seeking methods such as approaching recruitment firms, with using job boards and social networking sites, as well as proactively approaching prospective employers themselves. En France, les chercheurs d'emploi se tournent de plus en plus vers les sites de réseaux sociaux qu'ils consultant pour identifier les possibilités d'emploi de préférence aux médias traditionnels, comme les journaux et les magazines.

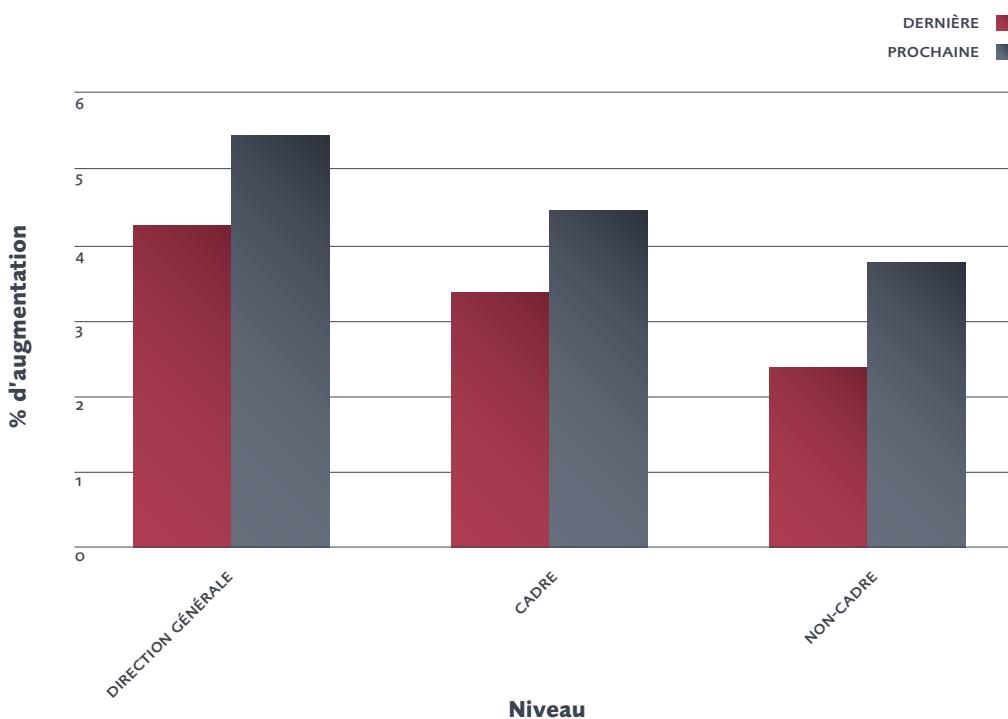

Enquête sur les salaires du secteur  
de la consommation en France 2015

# Salaires, avantages et primes

## 2.1 Pourcentage moyen d'augmentation reçue et attendue par poste

2.1 – Pourcentage moyen d'augmentation reçue et attendue par poste

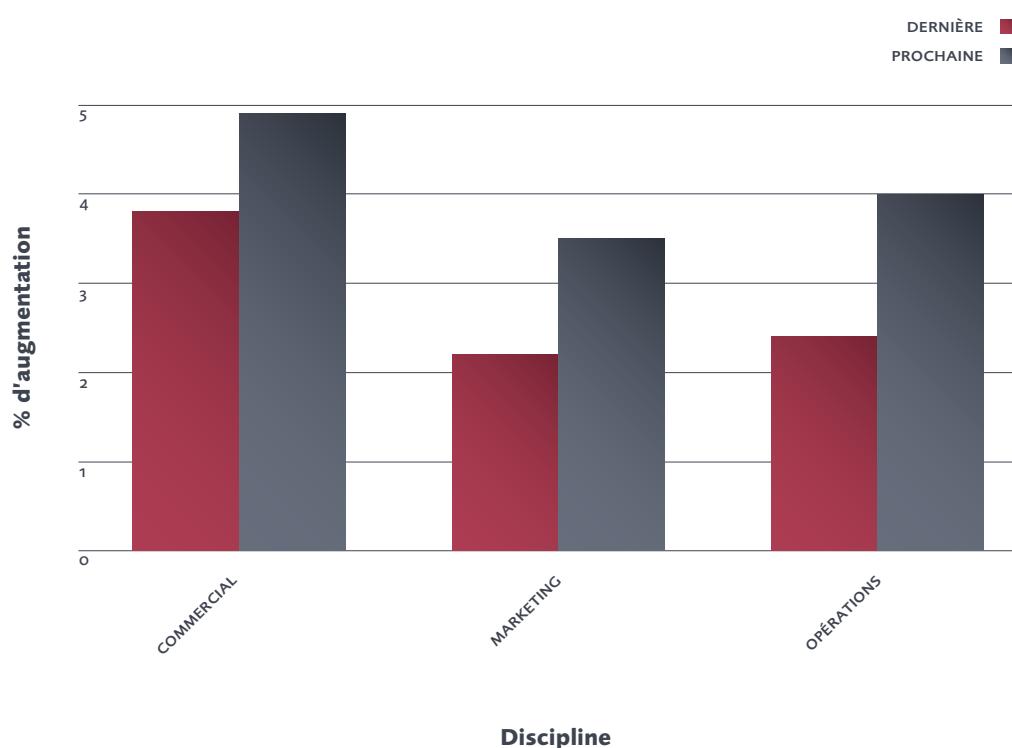

Lors de leur dernière révision salariale, les personnes interrogées ont reçu, en moyenne, une augmentation de 3,2 %. At all levels there is degree of positivity regarding this year's annual raise, with those working in executive, management and non-management roles all anticipating over a 1% increase in their next review.

## 2.2 Pourcentage moyen d'augmentation reçue et attendue par discipline

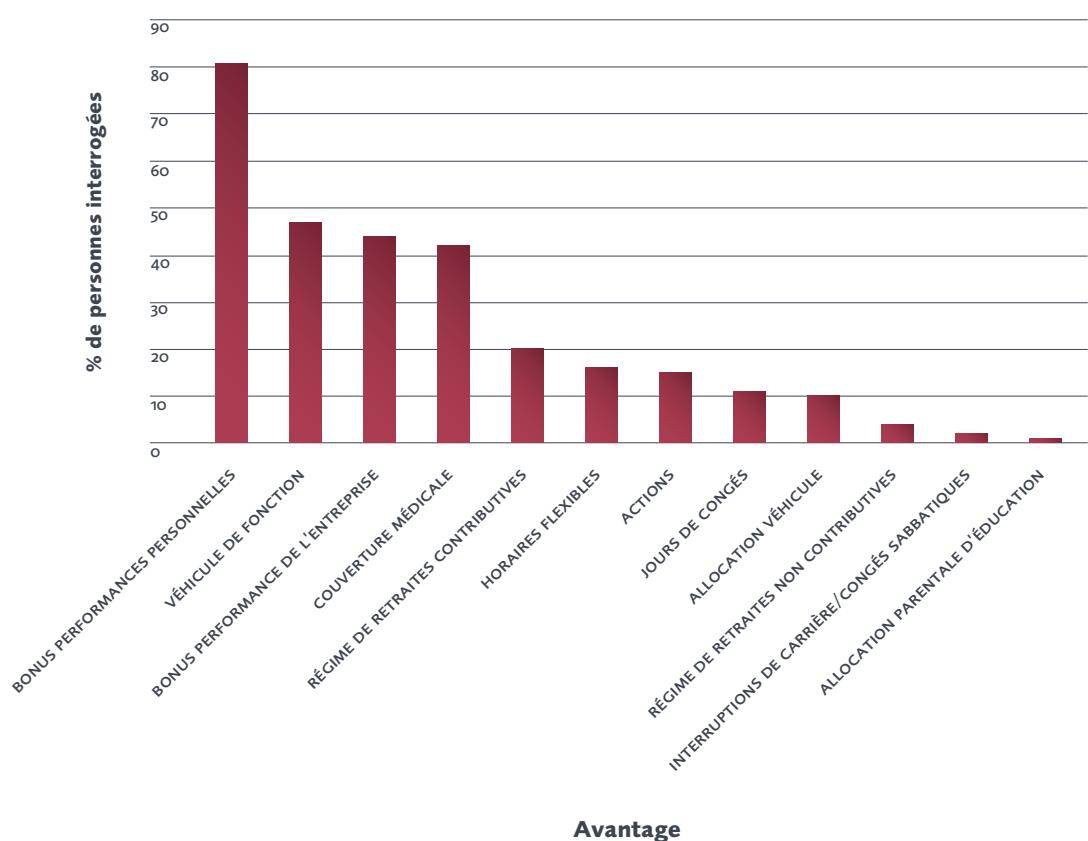

2.2 – Pourcentage moyen d'augmentation reçue et attendue par discipline

When we consider salary increase by discipline, on average those working in Operations and Marketing roles experienced a slightly lower rate than those working in Sales. Despite that, those working across all disciplines are expecting higher annual salary raises this year.

## 2.3 Importance des avantages dans la rémunération globale

### 2.3 – Importance des avantages dans la rémunération globale

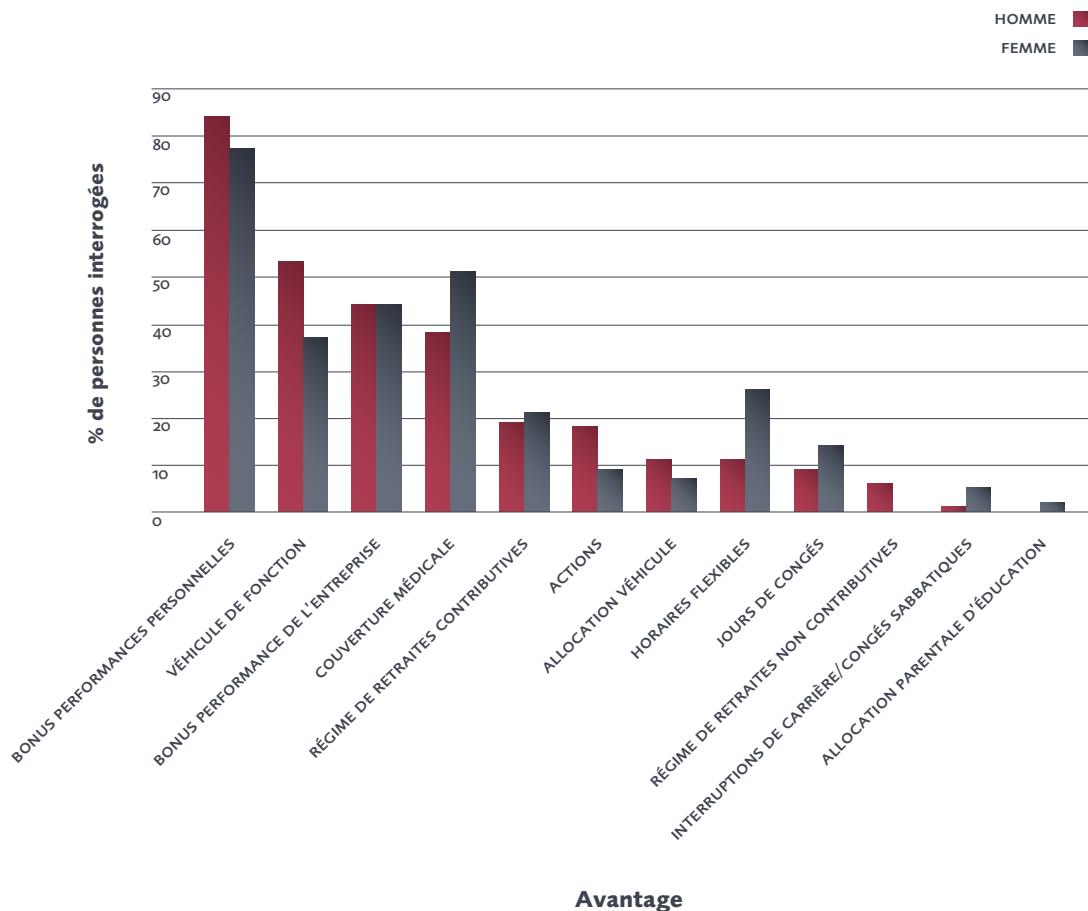

Les personnes interrogées estiment que les trois avantages les plus importants reçus dans le cadre de leur rémunération globale sont la prime de performance personnelle (81%), le véhicule de fonction (47%), et la prime de performance entreprise (44%). La couverture médicale (42%) est très appréciée, elle aussi.

## 2.4 Importance des avantages dans la rémunération globale en fonction du sexe

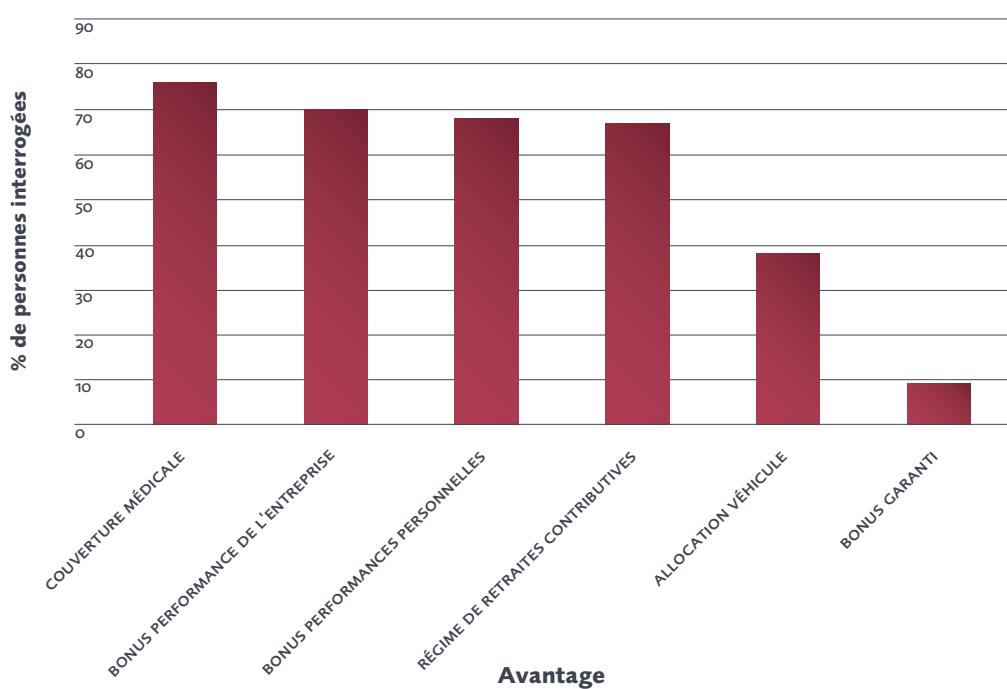

2.4 – Importance des avantages dans la rémunération globale en fonction du sexe

For men and woman, a personal bonus is considered to be the most important benefit in an overall remuneration package. Men tend to value car allowances and share options as important factors in their overall benefits package. Women value flexible working and health insurance more so than those factors.

## 2.5 Benefits and bonus entitlement

### 2.5 – Benefits and bonus entitlement

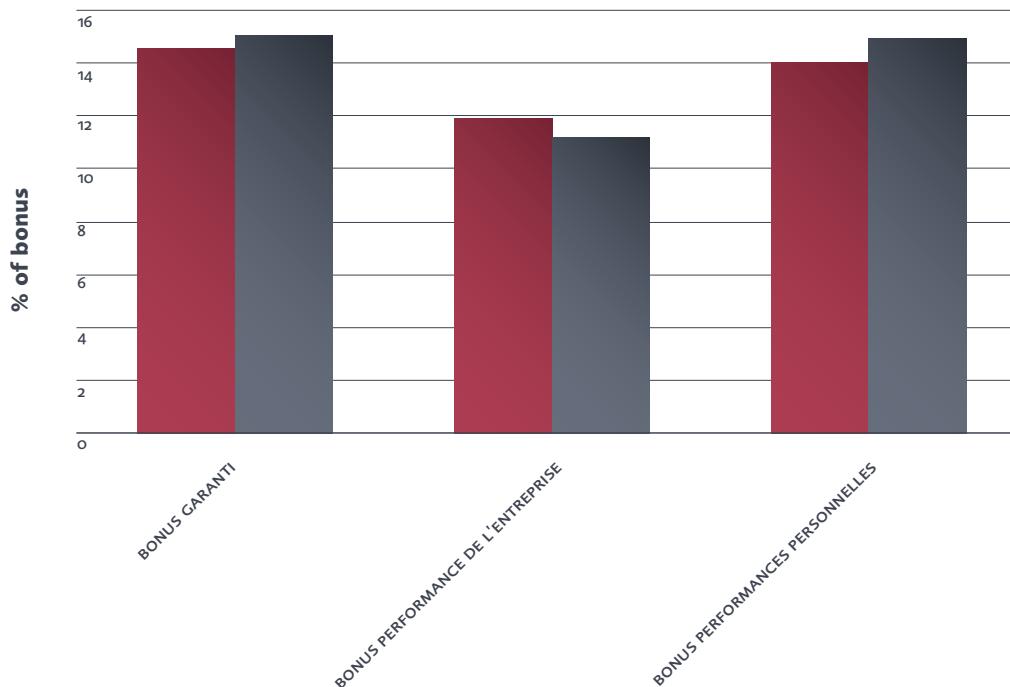

Overall 80% of those surveyed receive some form of benefit or bonus. The most common being healthcare (76%), a company performance related bonus (70%) and a personal bonus (68%).

## 2.6 Bonus rates received and expected

2.6 – Bonus rates received and expected

DERNIÈRE ■  
PROCHAINE ■

Those respondents that received a bonus last year gained, on average, 13.4%. There was a slight degree of positivity about this year's bonus, with respondents indicating, on average, that their bonus would increase by 0.2% to 13.6%. Guaranteed and personal bonuses were generally expected to rise this year. With regards to company bonuses, respondents were less inclined to express confidence that their bonus would rise this year.

**Enquête sur les salaires du secteur  
de la consommation en France 2015**

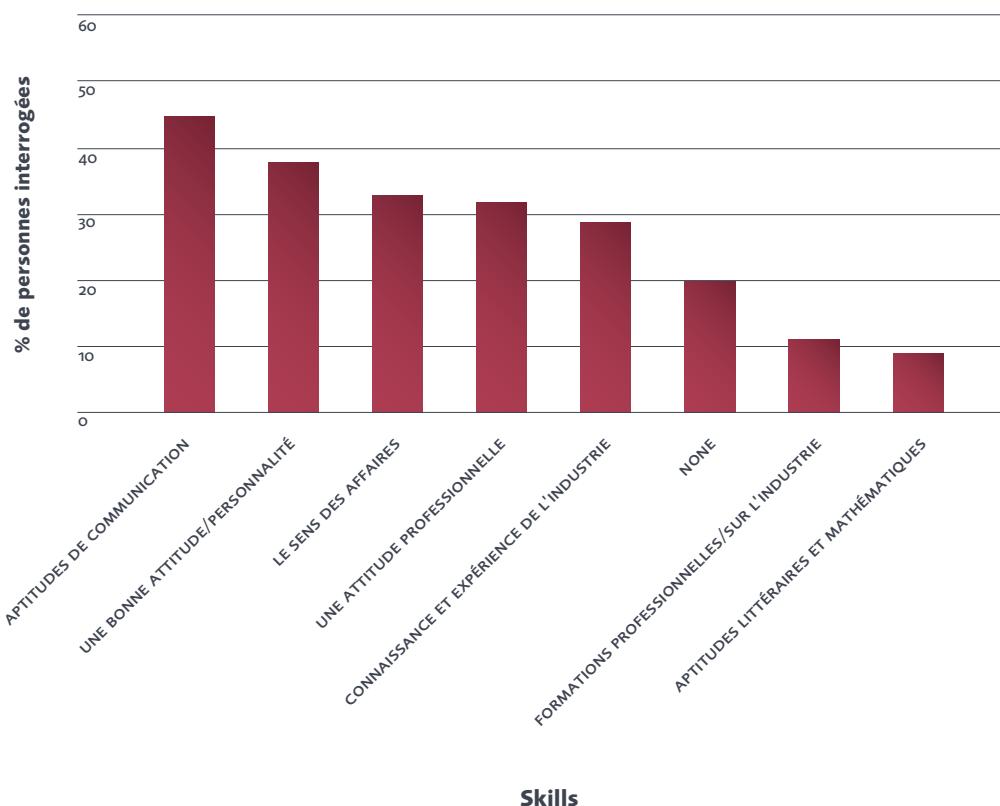

# **Skills and attitudes**

## 3.1 Pénuries de compétence

This section presents information from respondents on skill shortages and what qualities they believe are needed to be successful in their industry.

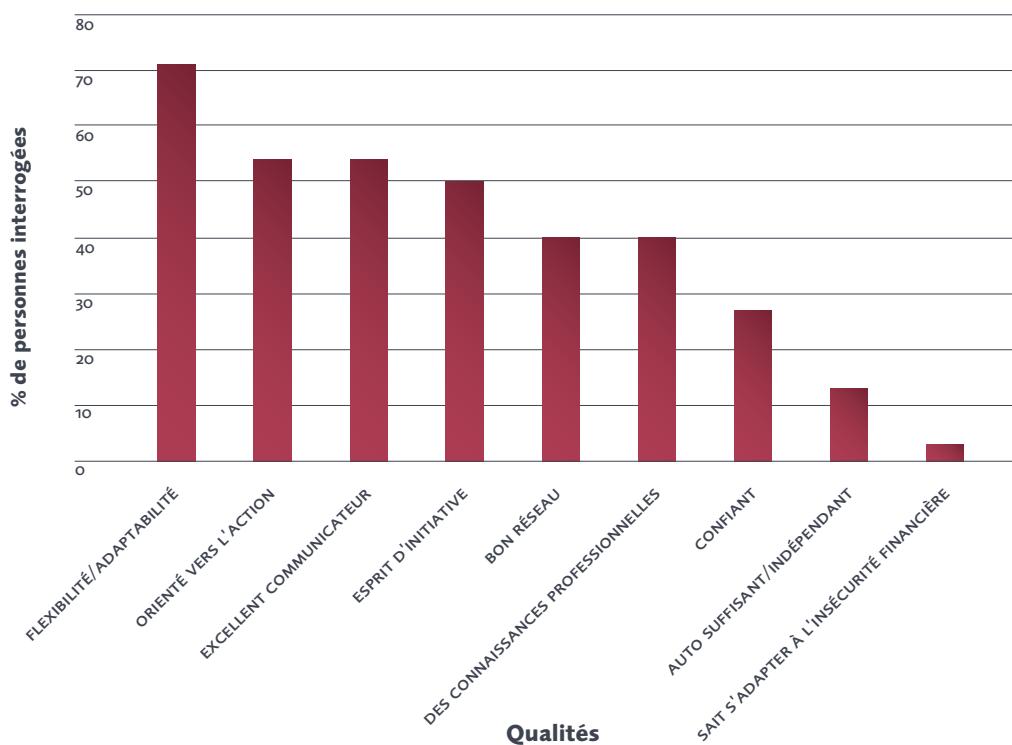

### 3.1 – Pénuries de compétence

Respondents were asked to select which skills they thought were lacking in the consumer industry. Overall, communication skills (45%) and having the right attitude and personality (38%) were the most commonly selected skills, followed by commercial acumen (33%).

## 3.2 Qualités requises pour réussir

### 3.2 – Qualités requises pour réussir

Again, respondents were asked to select what qualities they felt were the most important for those working in the consumer sector. Being Flexible/adaptable (71%), action oriented (54%) and an excellent communicator (54%) were considered the most significant.
